

DIEGO SOMMIER RODRÍGUEZ

Hybrid Cloud Administrator | Azure | Windows Server | Microsoft 365

Gijón, Spain | diegosommier@gmail.com | +34 686 89 22 43 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

IT professional with over **9 years of experience** in **Windows and Linux environments, infrastructure administration, Active Directory, and virtualization**. Experienced in **hybrid environments** working with **Entra ID, Microsoft 365, and Exchange Online**, supporting and managing enterprise services. Currently building on my hybrid infrastructure experience by expanding my expertise in **Azure, AWS, and automation**, with a focus on Cloud Administrator roles.

WORK EXPERIENCE

Endpoint Management Administrator (SCCM / Microsoft Intune)

Aubay, Madrid, Spain

November 2024 – January 2026

- Performed the migration of **50,000+ Windows 10 endpoints** to **Windows 11** for **Santander Digital Services**, achieving a **98% deployment success rate**.
- Remediated software deployment failures and improved deployment success rates across **90%+ of affected devices**.

Systems Administrator

Izertis, Madrid, Spain

December 2022 – November 2024

- Administered **hybrid IT environments** based on **Active Directory, Microsoft Entra ID, Exchange, and Microsoft 365**, supporting **300+ users** at **CBNK Banco**.
- Managed monthly **Windows patching cycles** across **300+ endpoints** in development, pre-production, and production environments, ensuring security and compliance.
- Resolved **Tier 2 infrastructure incidents**, providing technical support for **300+ users** in enterprise environments.

Alten, Madrid, Spain

May 2021 – December 2022

- Automated administrative tasks, optimized infrastructure resources, and improved the performance and reliability of **Decathlon's Windows environments**.
- Participated in the implementation and migration of **RFID self-checkout terminals** across Spain, contributing to a **100% nationwide deployment completion rate**.

Lognext, Madrid, Spain

June 2020 – February 2021

- Handled incident resolution and **change management activities** across **BNP Paribas Windows server environments**, supporting service availability and operational stability.

DXC Technology, Avilés, Spain

April 2018 – June 2020

- Administered **Windows and Red Hat server environments** for **Zurich Insurance, MRW, and Campofrío**, managing incidents, change requests, virtual machines using **VMware vSphere**, and **Active Directory users and groups**.
- Managed monthly **patching cycles** for **1,000+ Windows devices** across development, pre-production, and production environments, ensuring system security and reliability.

TGA, S.L, Gijón, Spain

December 2015 – April 2016

- Managed **Windows server and endpoint incidents**, as well as change management activities.
- Administered **local network infrastructure** for an environment supporting **50+ users**.
- Configured remote support workstations for **ARPPA LOGIC**, enabling **ALSA ticket sales operations** and **Liberbank smart ATM deployments**.

Ayuntamiento de Gijón, Spain

September 2013 – December 2013

- Supported the installation and maintenance of **hardware, software, and network infrastructure** at Gijón City Council during an IT Systems Administration internship.

EDUCATION

Cloud Computing & DevOps Bootcamp

BlockStellart, online

July 2026 – Present

- Professional training focused on **AWS cloud infrastructure, DevOps practices, automation, and cloud security**. Practical training covering **AWS IAM, VPC, EC2 instances**, networking concepts, security principles, and cloud infrastructure management.
