EXPERIENCE

SCCM / Intune Administrator

November 2024 – January 2026

Aubay Spain

Madrid, Spain

- Migrated over 50,000 Windows 10 endpoints to Windows 11 for Santander Digital Services, achieving a 98% deployment success rate.
- Resolved software deployment issues, improving the success rate by over 90% on affected devices.

Systems Administrator

December 2022 – November 2024

Izertis

Madrid, Spain

- Administered hybrid IT environments based on Active Directory, Microsoft Entra ID, Exchange, and Microsoft 365, supporting over 300 users at CBNK Bank.
- Managed monthly Windows update and patching cycles across more than 300 endpoints in development, pre-production, and production environments, ensuring security and compliance.
- Resolved Level 2 infrastructure incidents related to Windows systems, identity, and Microsoft 365 services, maintaining business environment continuity.

Systems Administrator

May 2021 – December 2022

Alten

San Sebastián de los Reyes, Spain

- Analyzed resource consumption on Decathlon Windows devices, identifying and managing unnecessary processes to improve performance and stability.
- Deployed RFID self-checkout terminals across 100% of Decathlon stores in Spain, remotely performing installation, configuration, and commissioning.

Systems Administrator

June 2020 – February 2021

Lognext

Madrid, Spain

- Managed incidents and change management activities in BNP Paribas Windows server environments, contributing to service availability and operational stability.

Systems Administrator

April 2018 – June 2020

DXC Technology

Avilés, Spain

- Administered Windows and Red Hat server environments for Zurich Insurance, MRW, and Campofrío, managing incidents, change requests, virtual machines using VMware vSphere, and Active Directory users and groups.
- Managed monthly patching cycles for more than 1,000 Windows systems across development, pre-production, and production environments, ensuring system security and reliability.
